Referred Conference Proceedings

Theses

(Master thesis. University College of Borås) [Document retrieval models based on logic]

Other publications

Ahlgren, P. (2008-2013). About 30 reports in electronic form, written in Swedish and published on the web site of the bibliometric function of Stockholm University. In these reports, bibliometric indicators are applied to the publication output of (foremost) the departments of the university. URL to the start page of the web site in question: http://www.sub.su.se/publicera/bibliometri.aspx. URL to a sample report (Citeringsstudie av natur- och samhällsvetenskapliga institutioner vid Stockholms universitet, 2008-2010), which treats the citation impact, in terms of the indicators Mean Normalized Citation Score and Top-10%, of natural science and social science departments: http://www.sub.su.se/media/915517/fnormcitgr_top10_2013.pdf.
